## Picture of Parts

**Step One:** Check to see if your part "C" has the eyehooks installed. If not screw in the eyehooks as show below. Turning them four to five times.

Figure 1

**Step Two:** Lay fabric mat flat with tag side up. (We are building the bed upside down.

Figure 2

**Step Three:** Take one short part A with **BLACK Letters Facing up** and slide short sleeve of fabric in to the slit of short part A. Then slide a short Tube (Part B) into the sleeve of the fabric. As shown below.

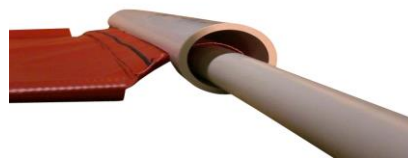

Figure 3

**Step Four:** Attach one corner to part A. As shown below.

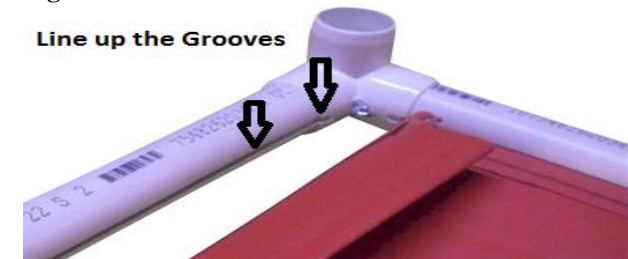

Figure 4

**Tip:** Use dish soap and water on inside of corners for easy install..

**Step Five:** Slide a long Rail into corner as shown. Line up the grooves of the rail and the corner. Slide fabric sleeve into groove on Rail and slide long tube in fabric sleeve. (Repeat steps 2 – 4 to attach remaining rails.)

Figure 5

**Step Six: (LAST CORNER):** Line up the last corner as shown. Use your hand or foot to apply pressure to rail to force corner in to place. As shown below.

Figure 6

**Step Seven:** Install corner guards with screw and nut as shown below. Corner guard will slide in notch in corner.

Figure 7

**Loosen or tighten eyehook as needed. Fabric does not need to be pulled tight by eyehook.**

Figure 8

**Step Eight:** Place legs in corners and install vinyl feet on tips of legs.

**Step Nine (Denny models only):** Install 1/4x2 1/2 bolts in to holes located in the center PVC piping and **tighten down corresponding nuts so that one thread shows above the top of the nut. See picture above.** Sizes Large – XL will have two holes. Sizes XXL and 3x will have four holes.

# Thank you for purchasing a Berker's Dog Bed.

## Frequent Questions

Q: How do I clean the bed?

A: Get bed wet, then add one teaspoon of dish soap to the mat. Use broom to scrub the mat and rise clean.

Q: Can I leave the bed outside all the time?

A: Yes the bed was designed for outdoor use.

Q: Is the mat UV and mildew resistant?

A: Yes

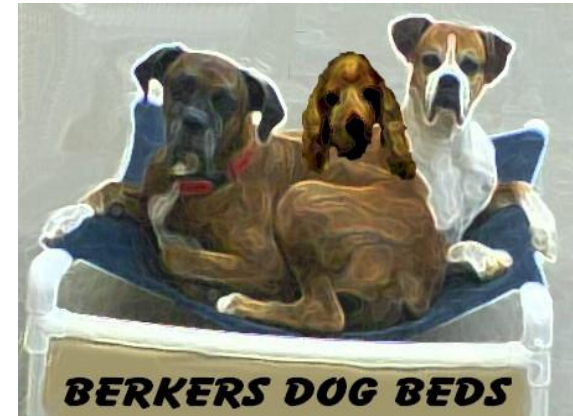

Q: Do you sell replacement parts?

A: Visit our website to purchase replacement parts.

## Tips for adjusting your dog to a new bed.

1. Do not try to force them on the bed.
2. Place one of their favorite toys or treats on the bed. Then just leave them alone with it.
3. Move the dogs scent to the new bed. Place something with your dogs scent on the bed. A blanket, or toy, or pillow that your dog has used before.
4. Scent the bed with you're scent. Run your arm, or some thing made of cotton that has your scent on the bed.
